

Cambridge Ethnic Community Forum Our Cambridge Workshop Discussion

The City Council has launched the [Our Cambridge](#) programme which aims to make significant improvements to build a better, more efficient and sustainable organisation for the future.

Alongside this we want to think about how we work together in partnership with residents and communities to help everyone in Cambridge City live safe, happy, and healthy lives.

Conversations are starting now to ask, '**what things are important to you**' and this will help to build a picture for the future of the city.

Come and join us for a conversation about this.

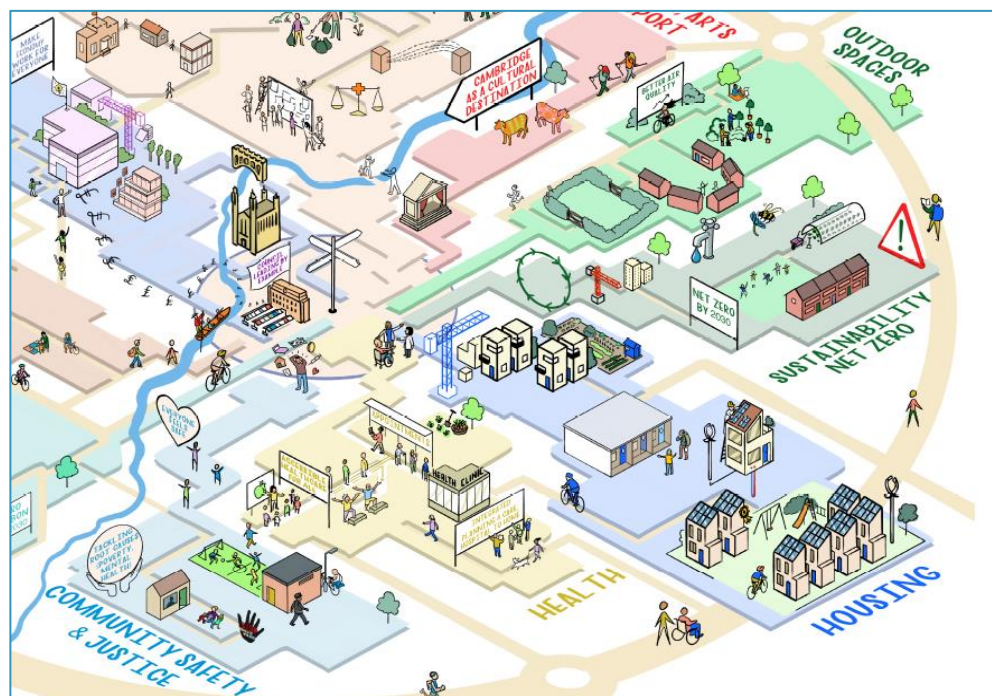

When: Monday 20 March, 11am-12pm

Where: Online via Zoom

To get more details or secure a place contact eddie@cecf.co.uk

The feedback we get will help to build a picture of the city like this one.

During the session we will be talking about this picture, and how it will help us to have conversations about '**what matters**' in the future.

You can also complete the survey which is live now until the 26 March and you will be entered into the prize draw to win a £100 of Love Cambridge voucher. Click [here](#) to enter.
